

Flat Earth (The real World)

English for Information Technology

Richard Schröder

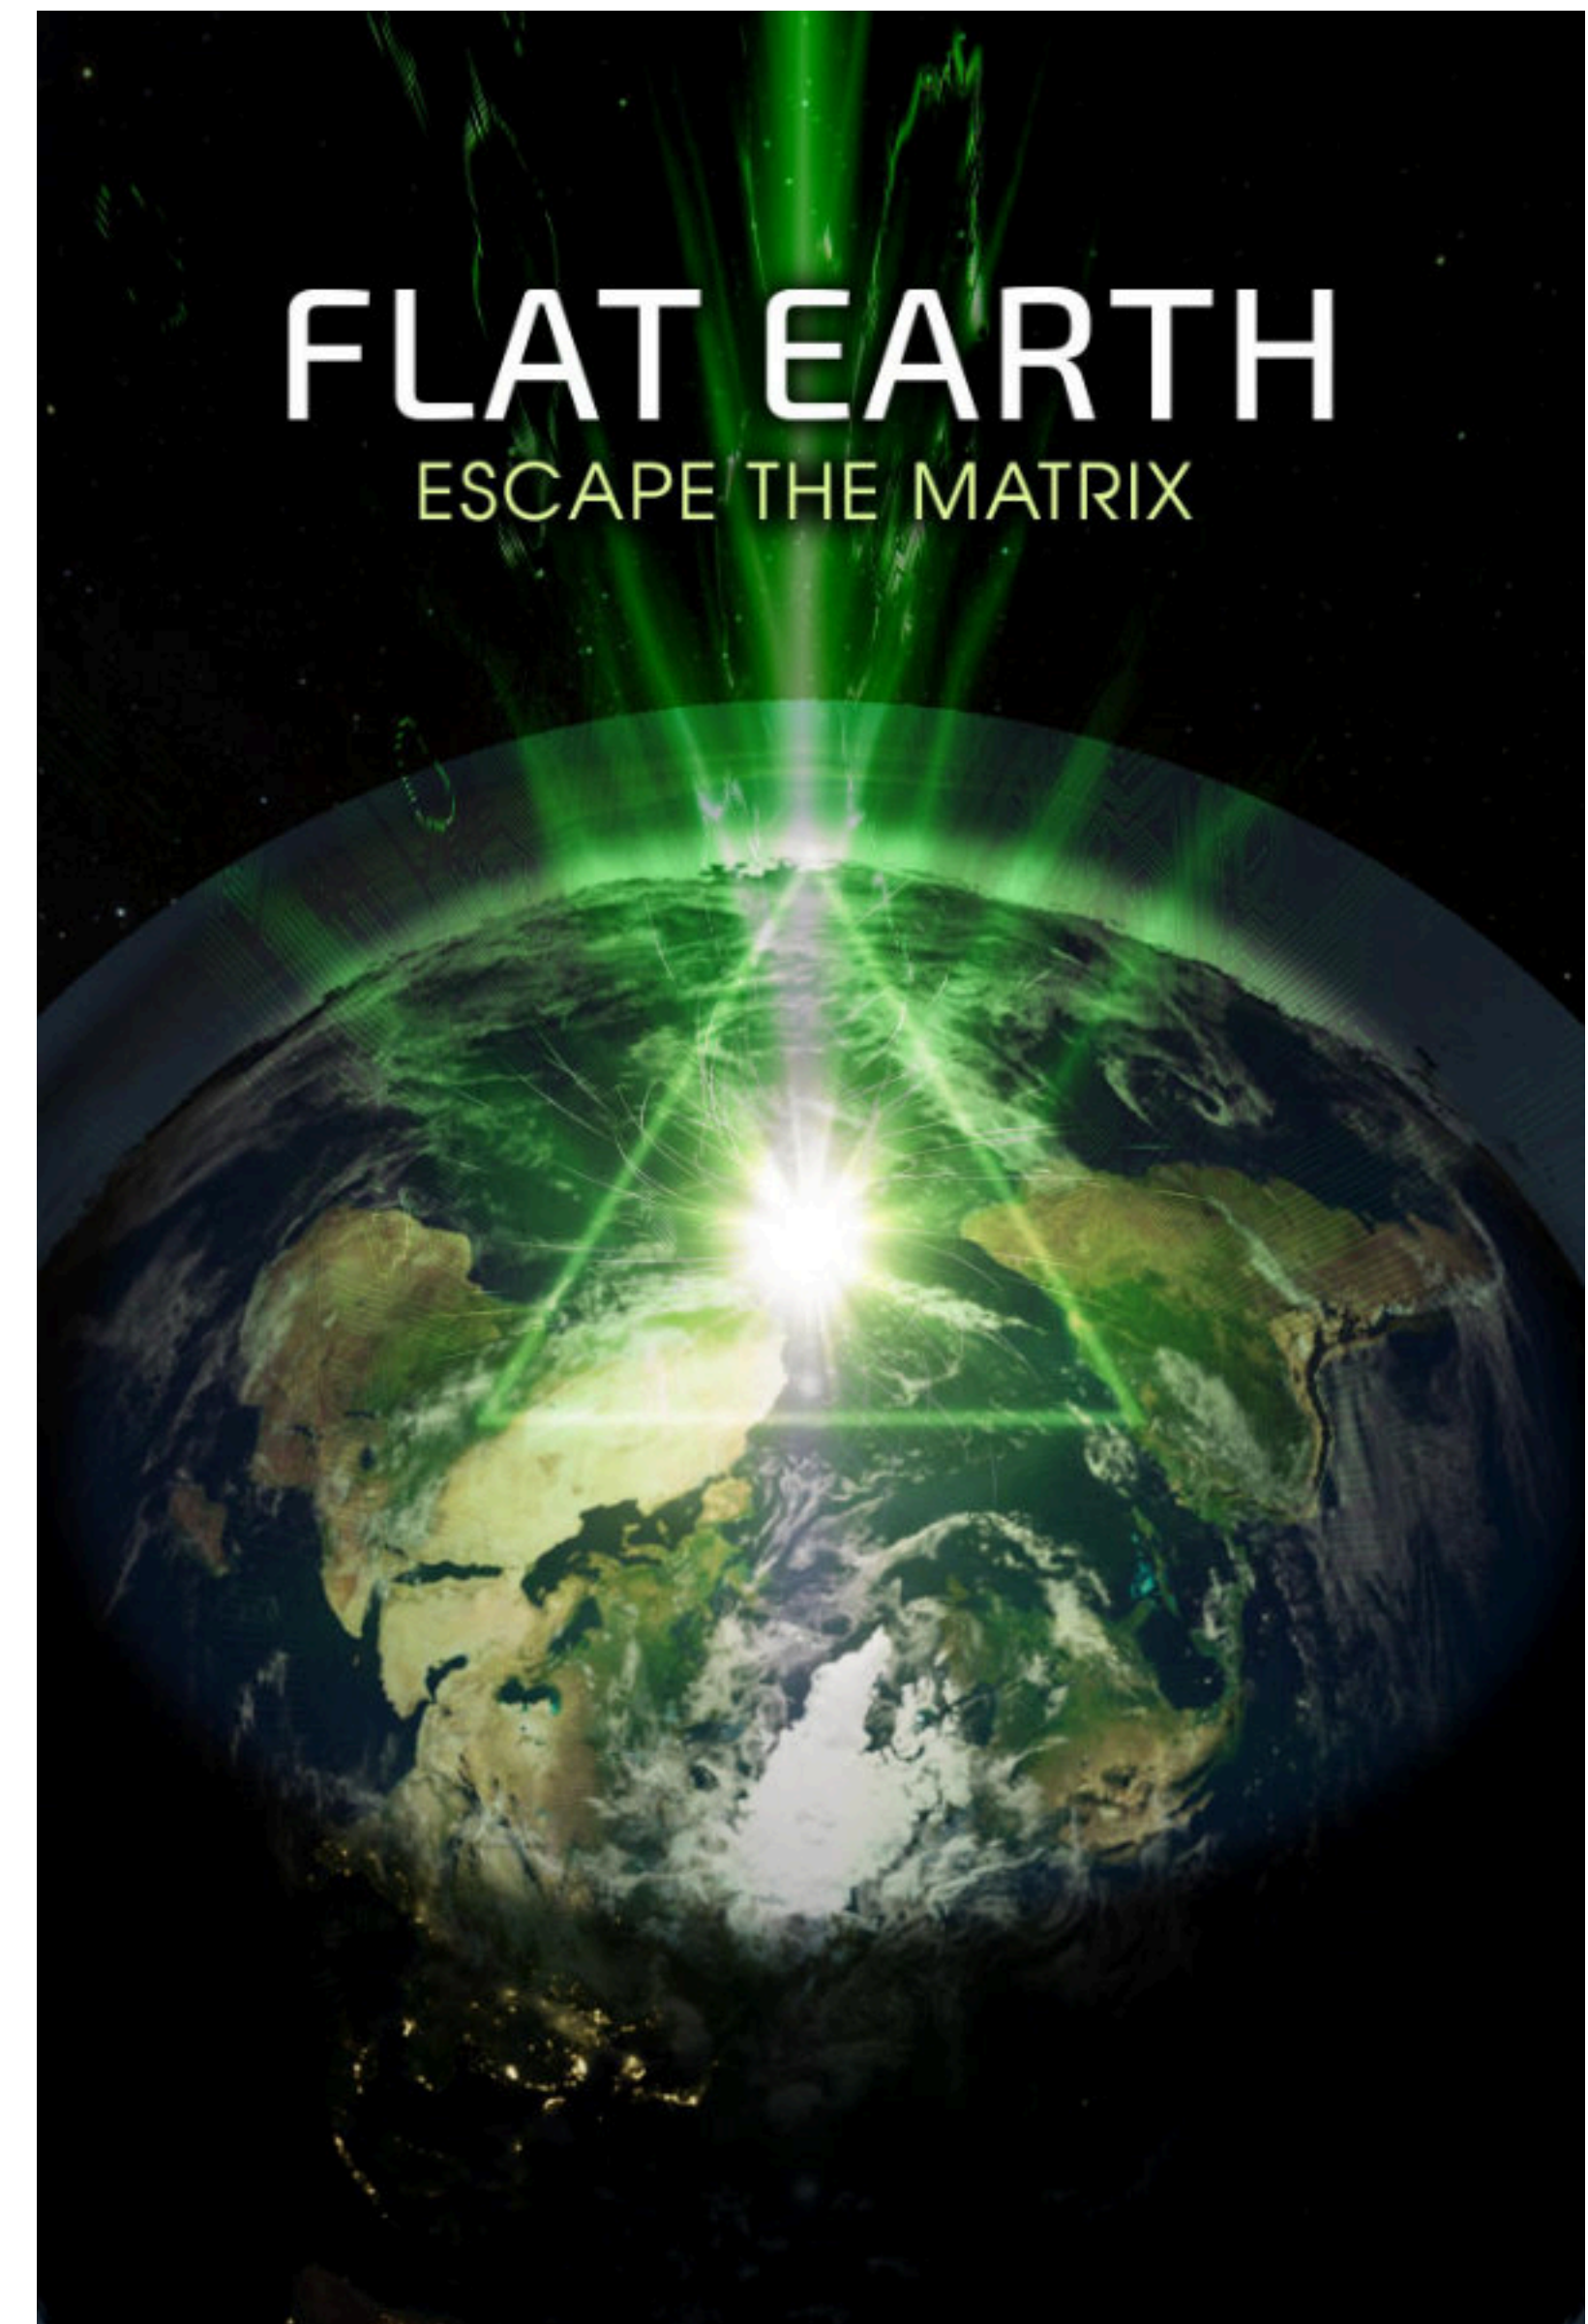

Flat Earth

Core Concepts

- Stationary Flat Disc
 - No Spin
 - Flat Earth is at the Center of the Universe
 - Has its own set of rules
 - Uses "alternative" Science
 - There are many ways to explain the Flat Earth
- > Focus on a few core concepts

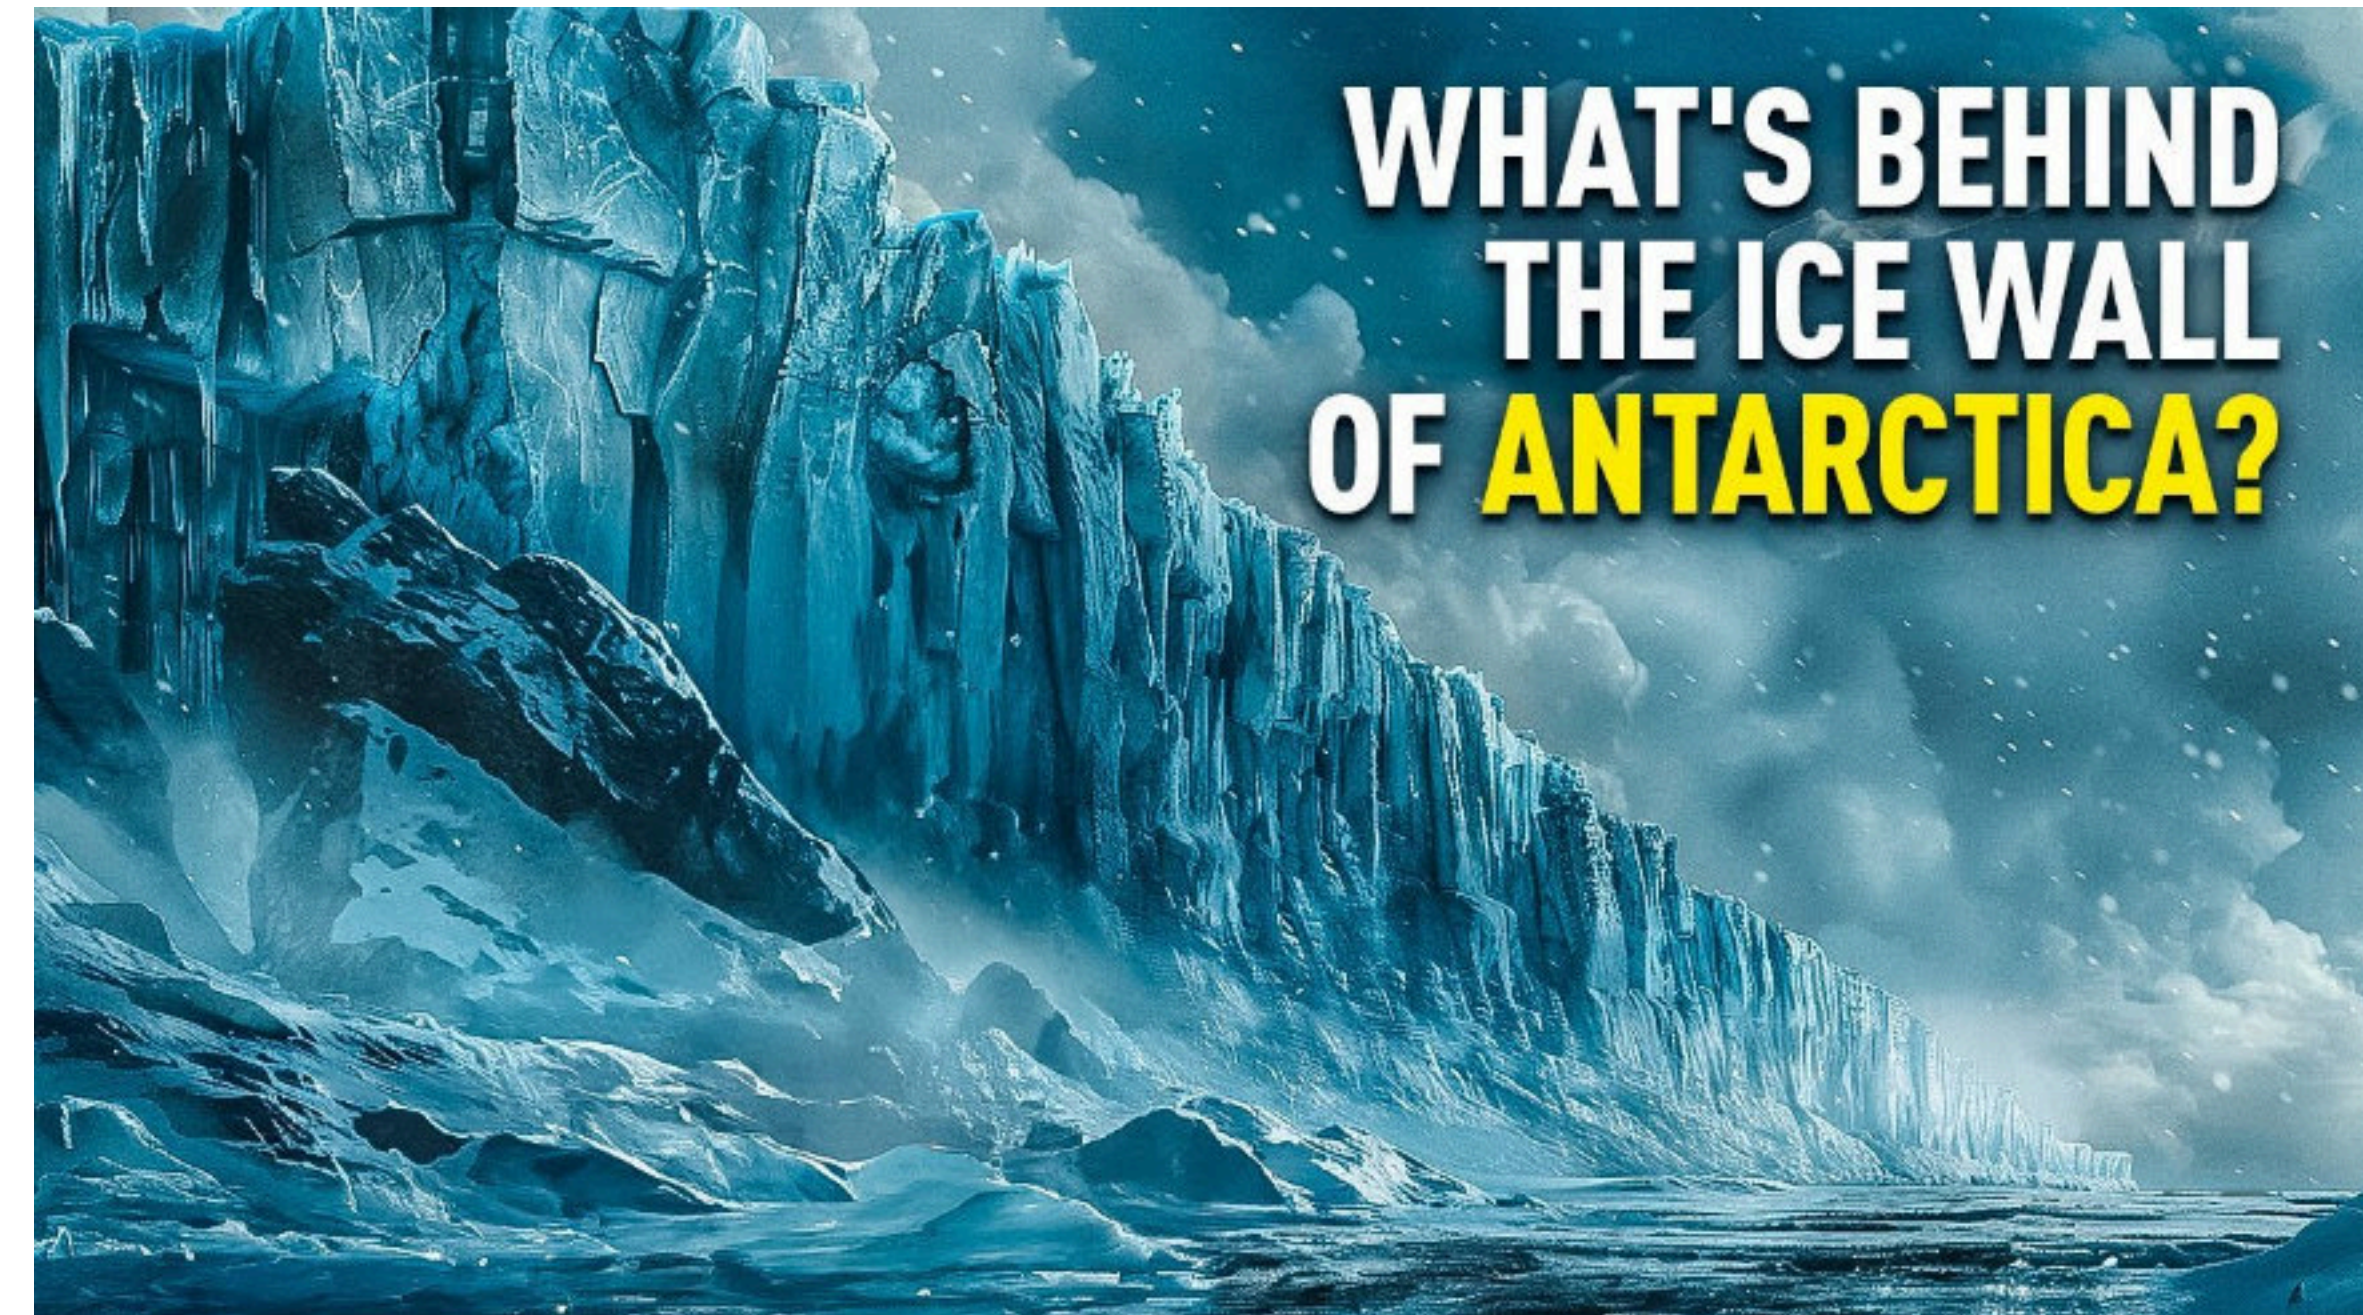

Science

The Ice Wall

- Contains the worlds oceans
- Spans around the whole world
- The Ice Wall is about 150 feet high (45m- 50m)
- Ice stretches out for thousands of miles

2 Theories about the end of the ice wall:

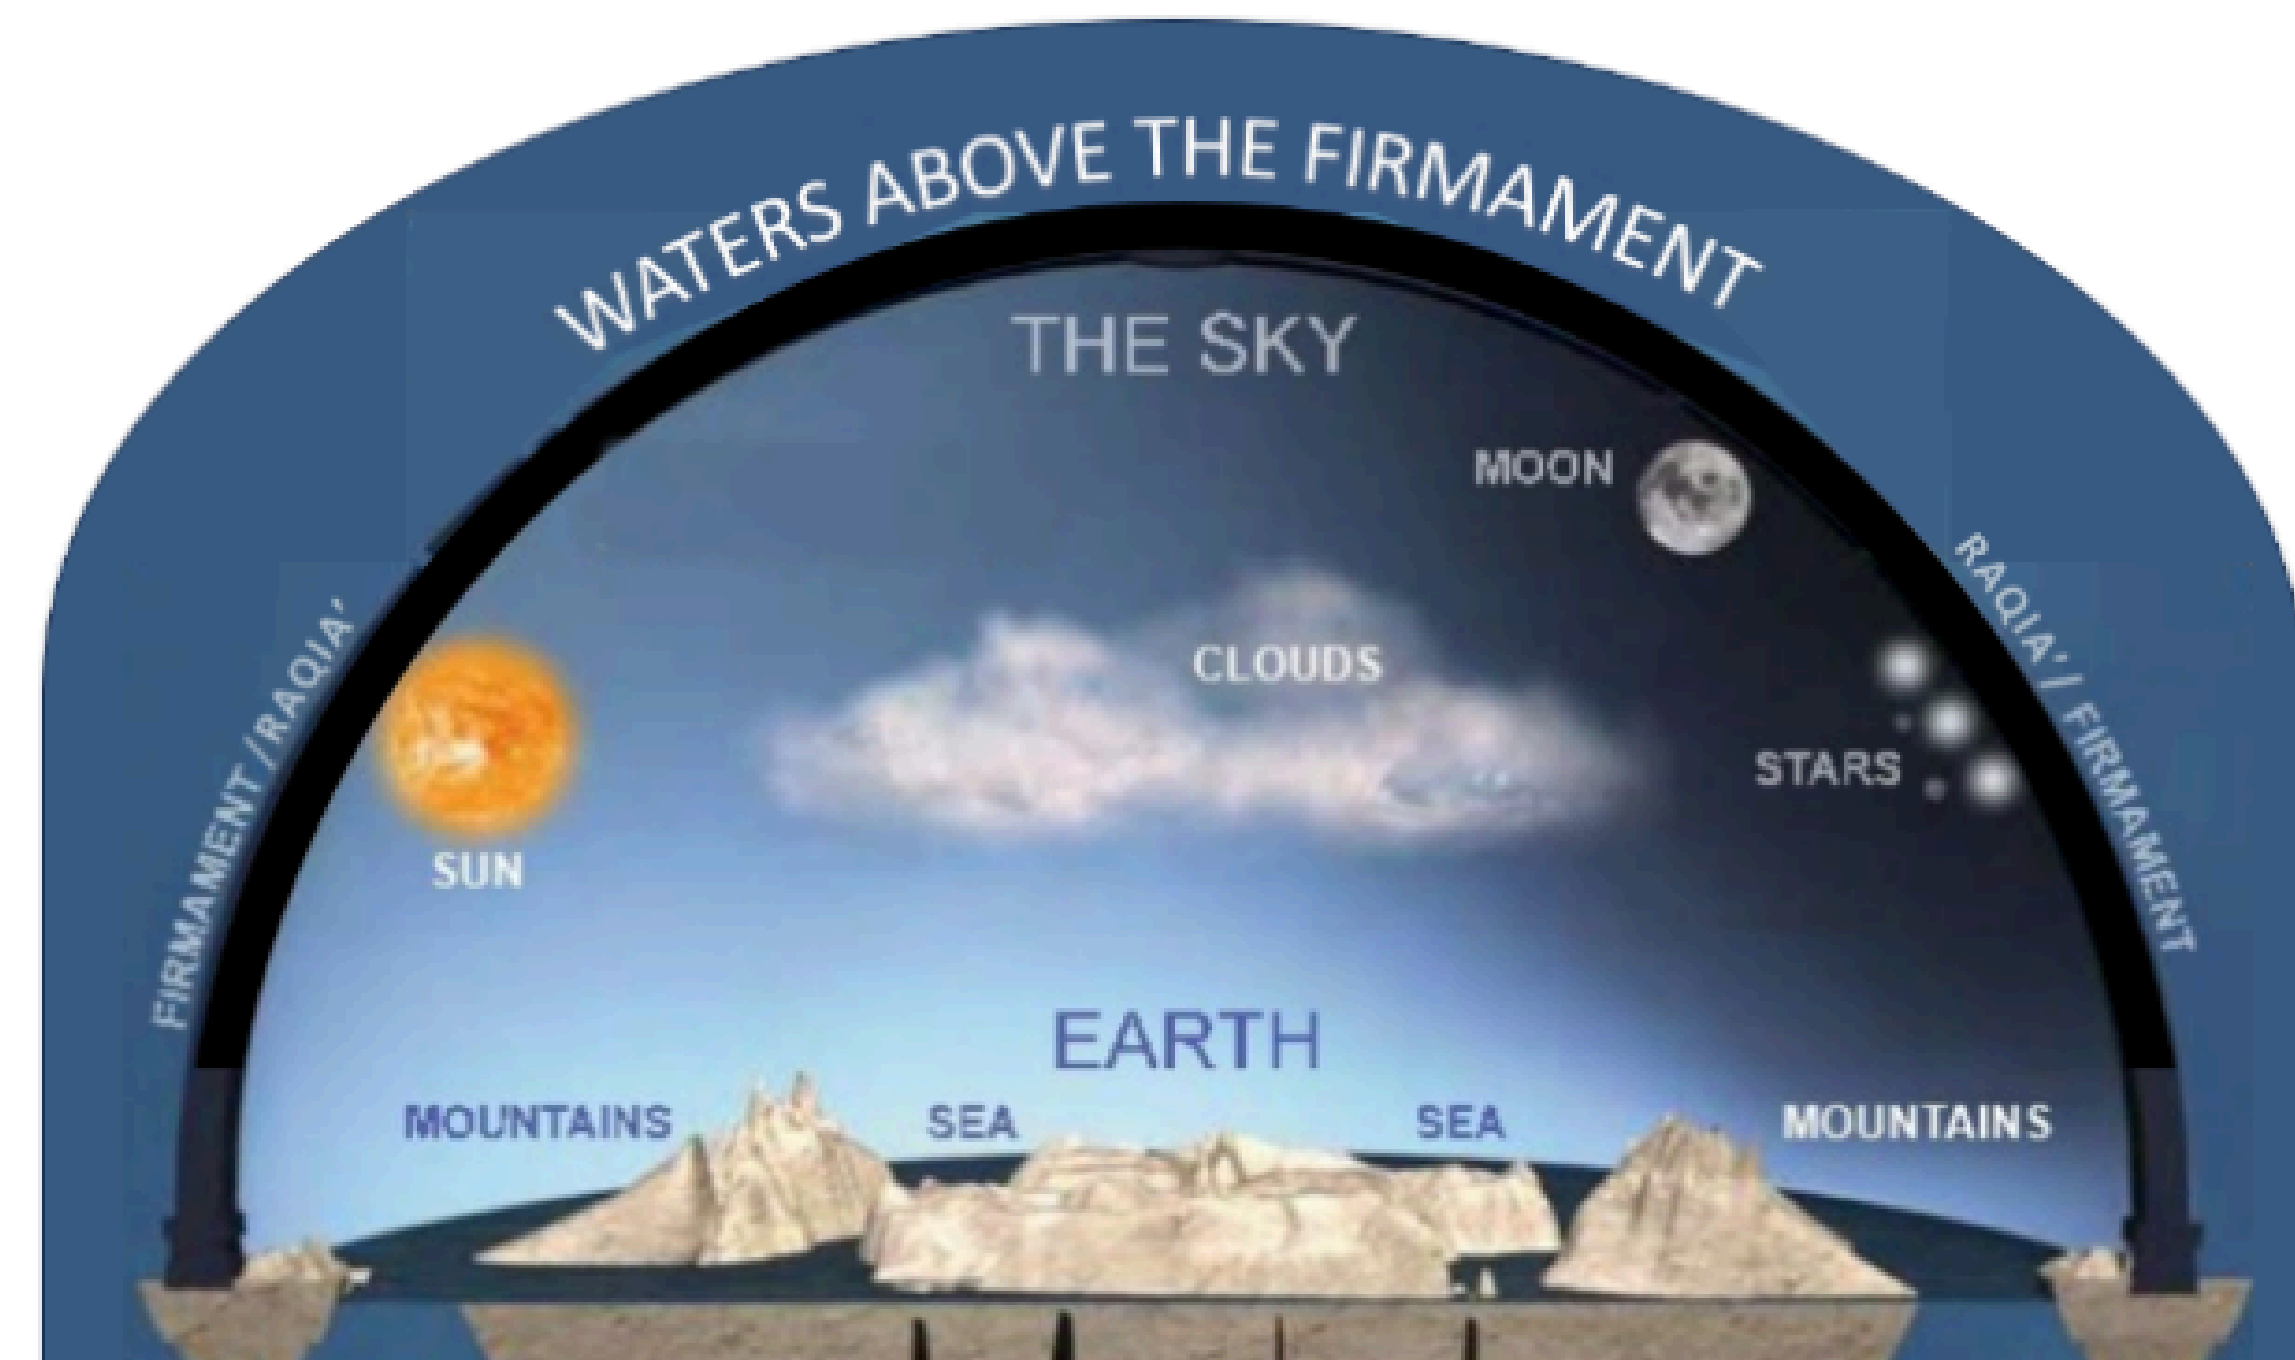

- I) Infinite Plane: Ice extends forever, continents hidden in the ice -> Ice Ball Theory
- II) The Dome Boundary: At some point you hit the boundary created by the dome

Science

The Dome (Firmament)

- Encloses the entire world
- Acts as a cosmic roof
- Contains the atmosphere
- Entire Cosmos is contained in the dome
- "Space" is beneath the dome's roof
- Protection from the "Waters Above"
- Waters Above: External Water instead of void
- The Flat Earth is essentially a Snow Globe

Science

Celestial Mechanics

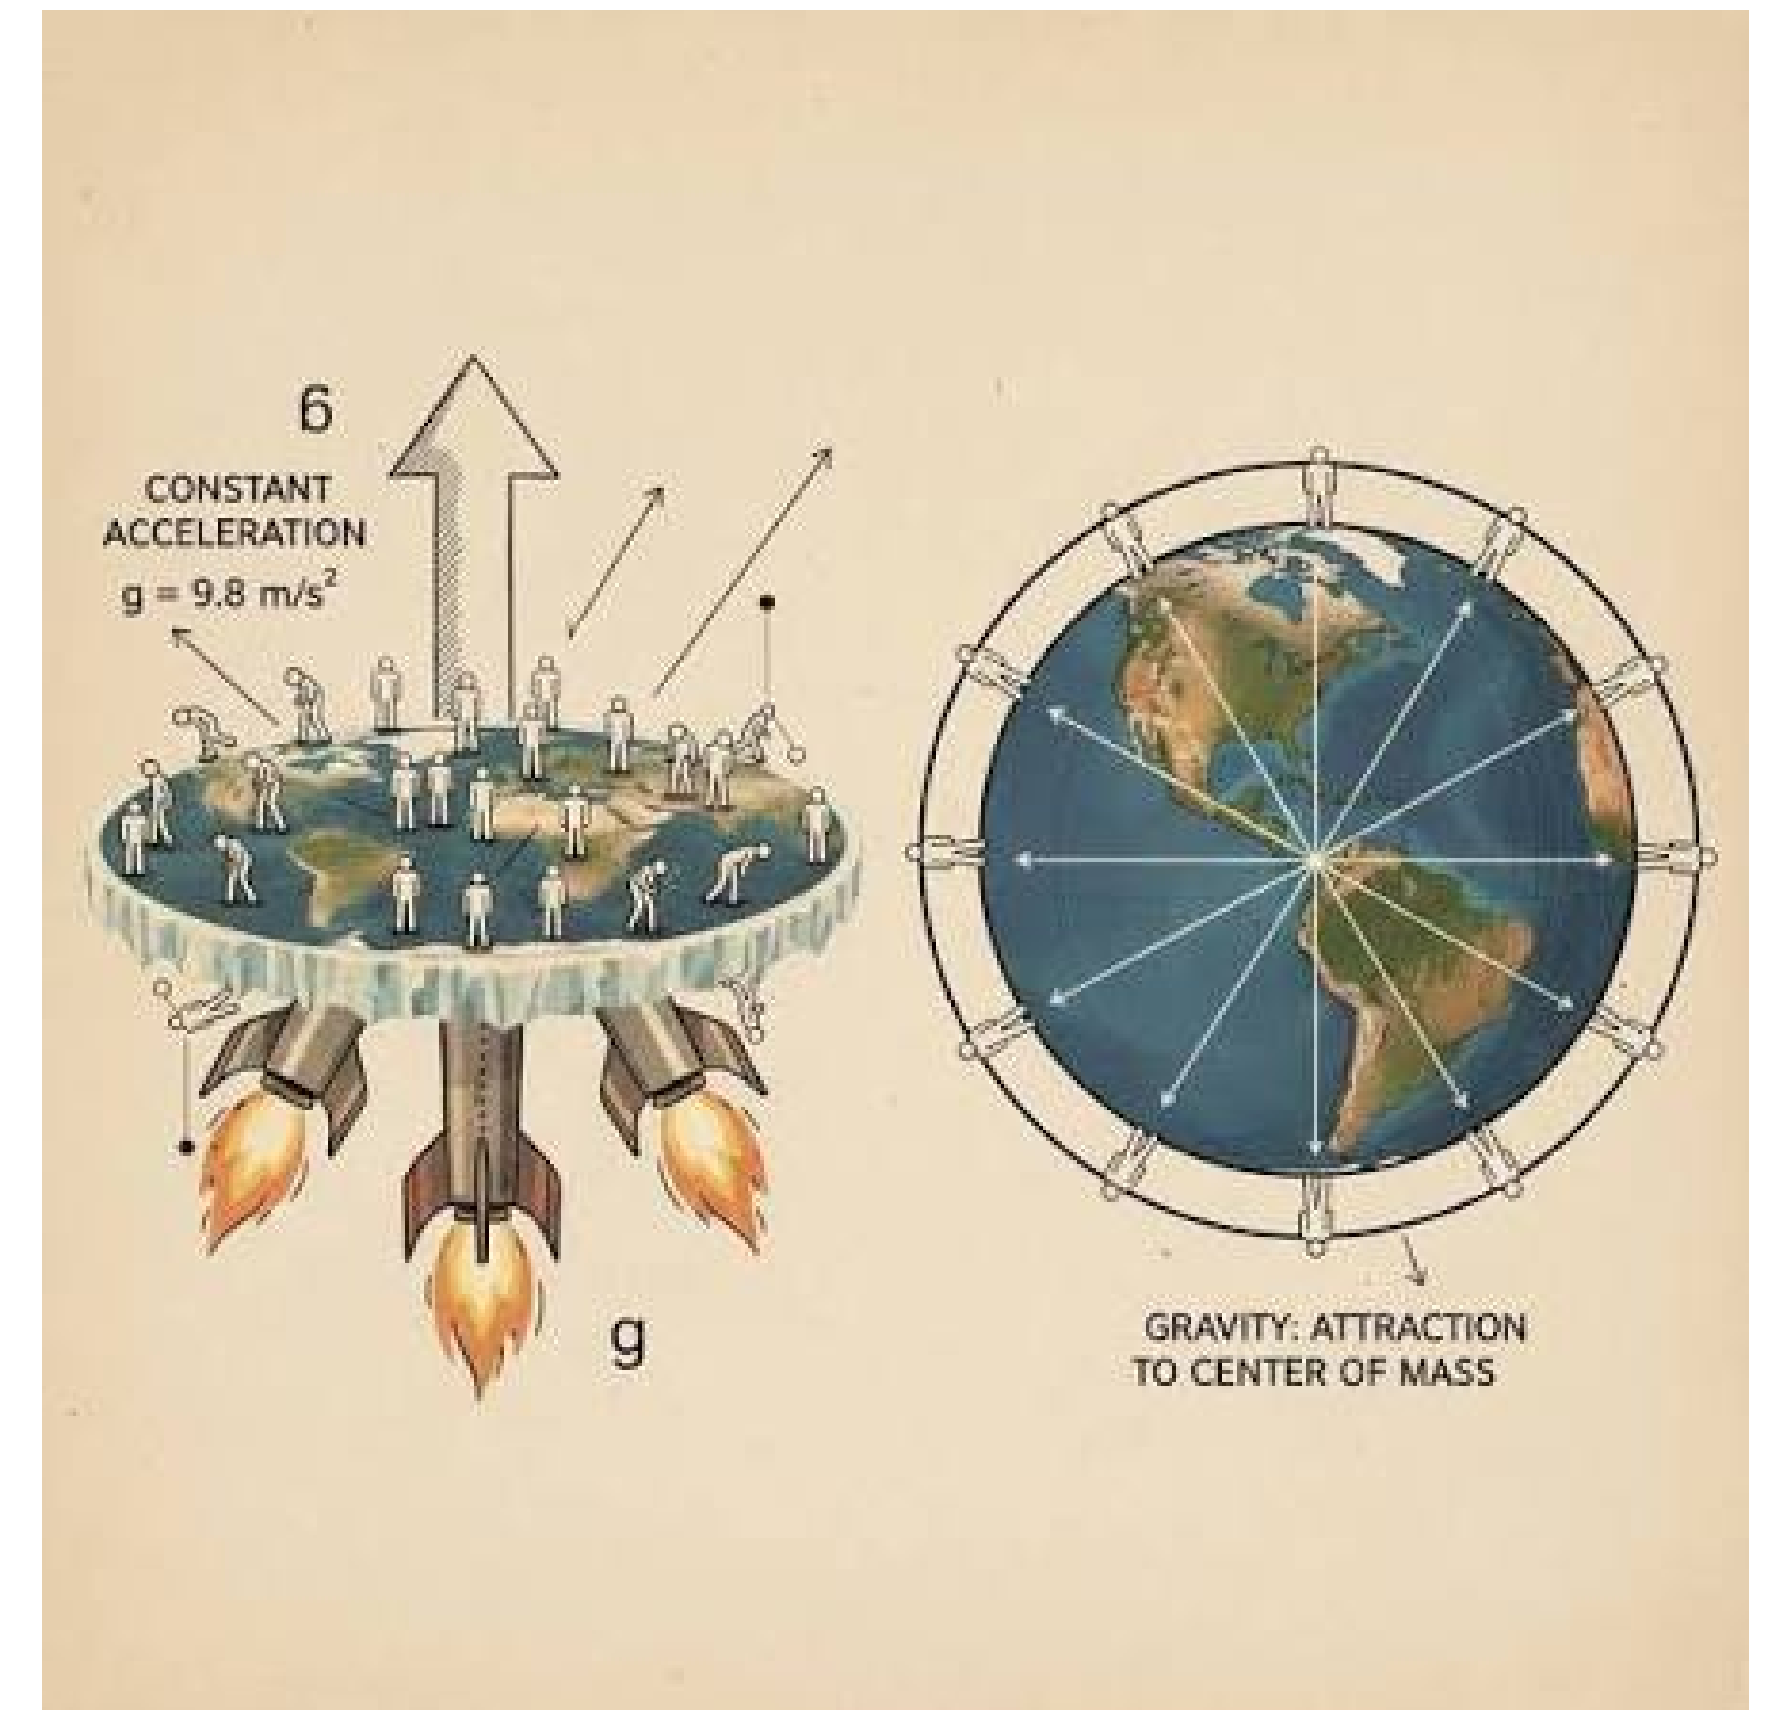

- The Sun and the Moon are Spotlights
- Both are small and contained inside the dome
- The Sun is like a directional flashlight
- Only few thousand miles above the Earth
- The Sun circles the earth clockwise
- Moon circles too, but with different speed
- Changing position in night sky
- The Moon generates its own light
- Phases: Rotating dark hemisphere
- Seasons: Spiraling Sun
- Planets and Stars are inside the dome

Science

Universal Accelerator (Gravity)

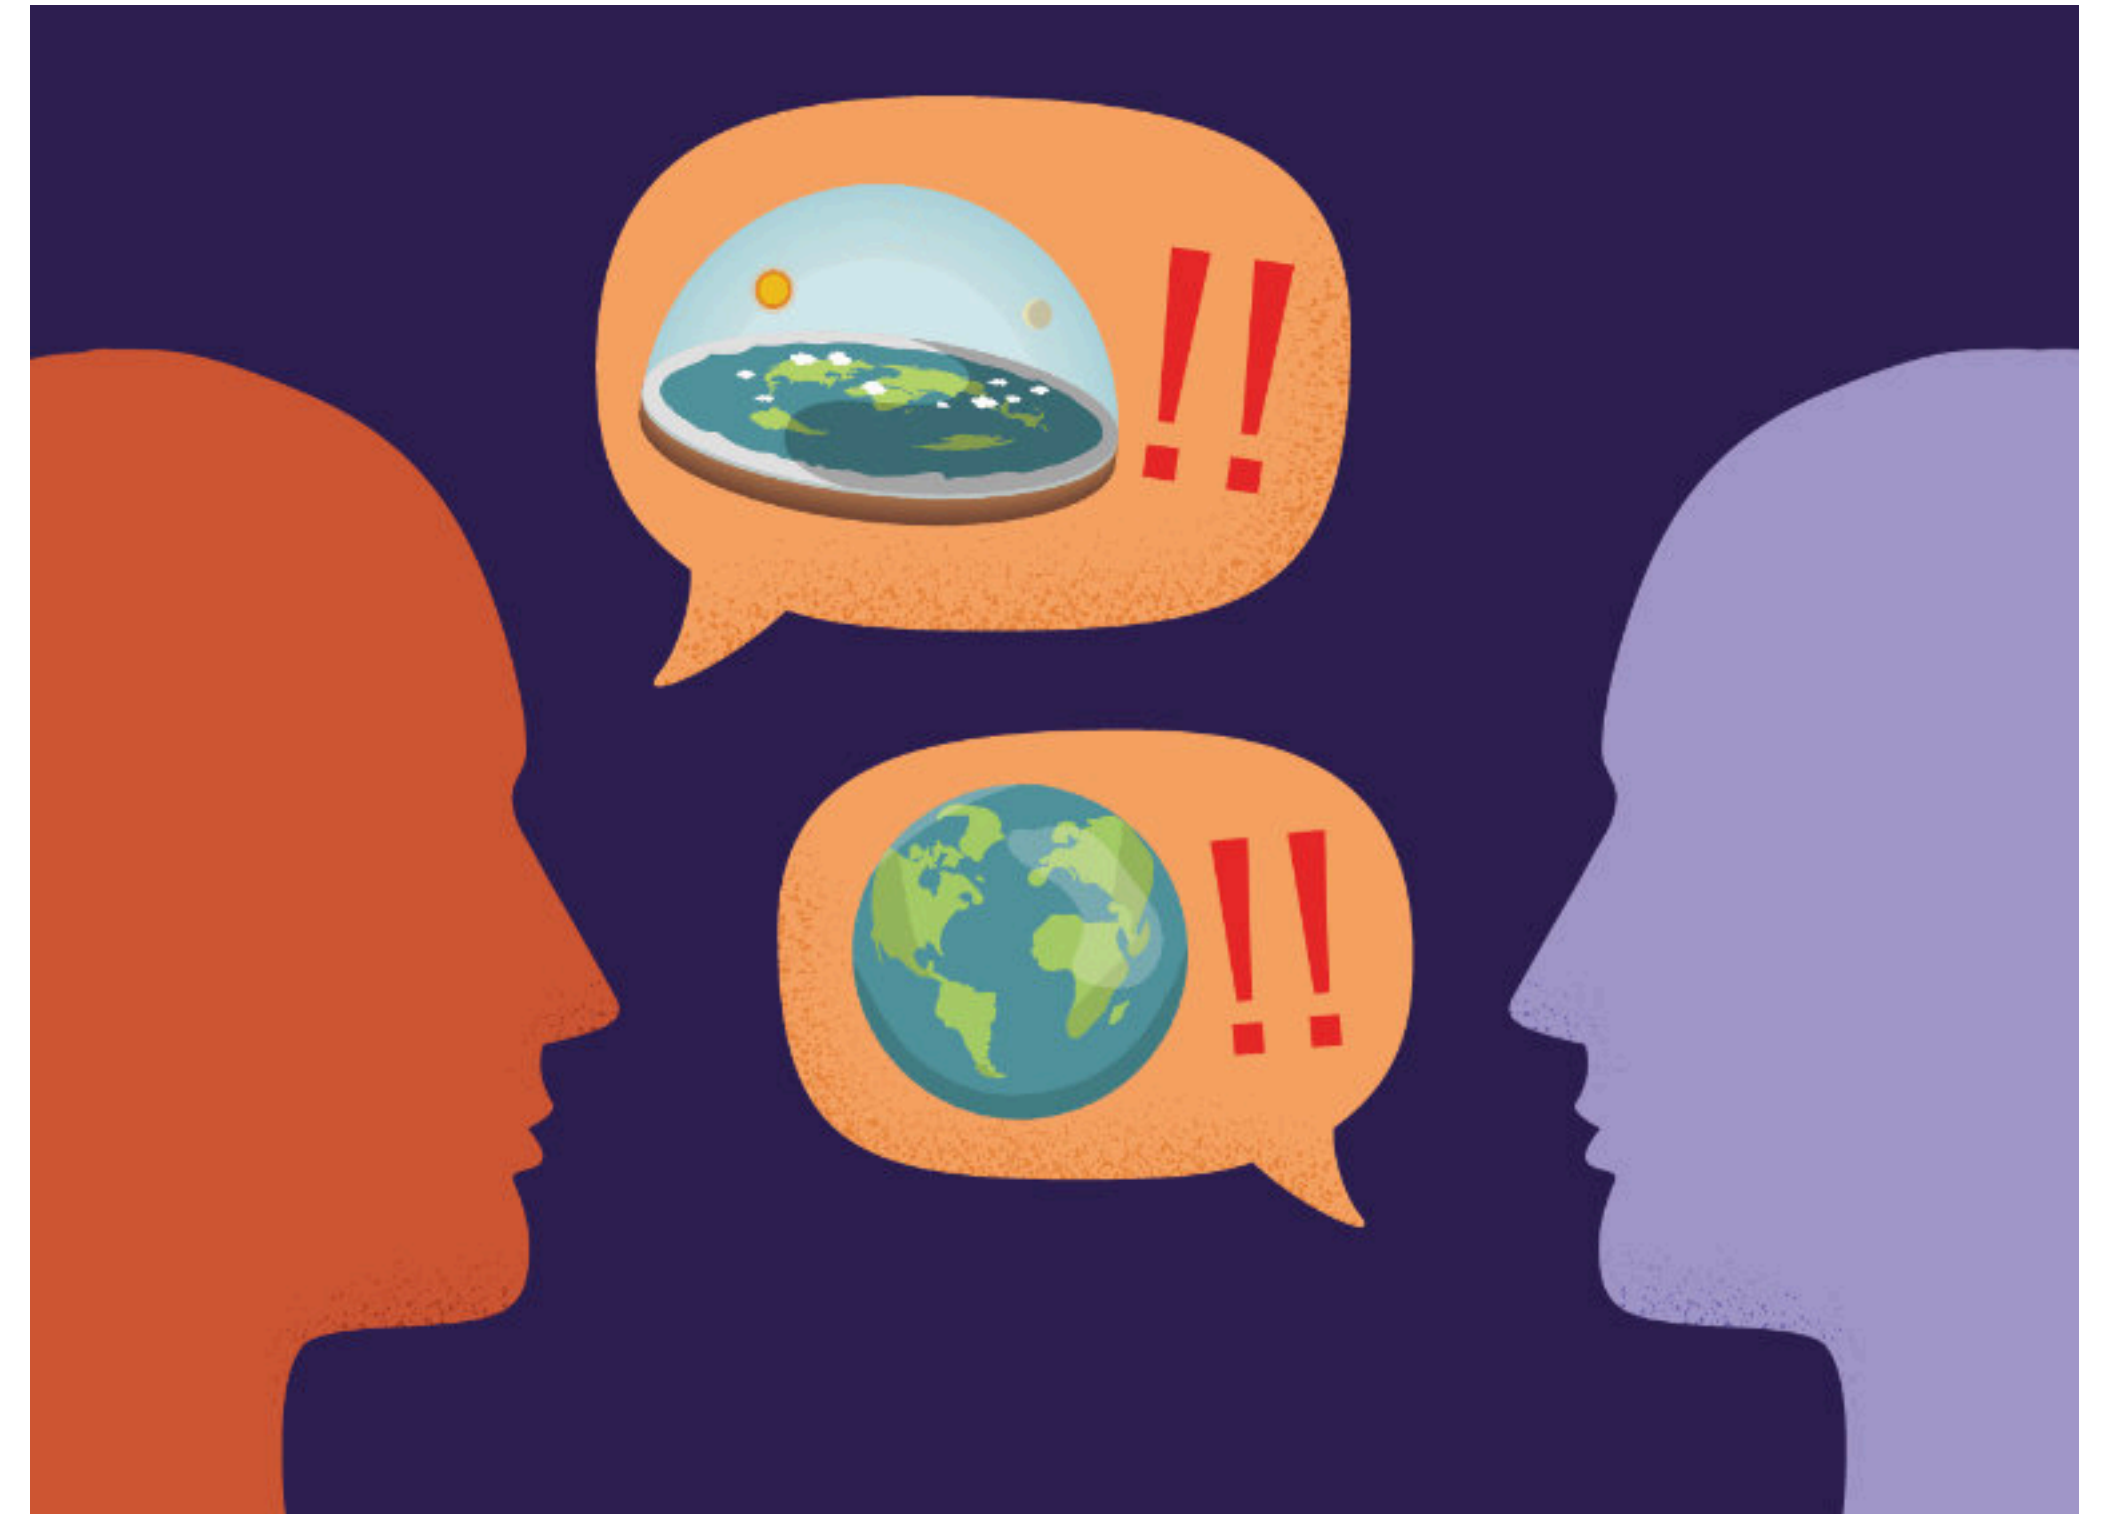

- No Gravity, Mass does not attract Mass
- Instead we have Universal Acceleration
 - > The Cosmic Elevator
- The entire flat earth is constantly moving up
- Propelled by Dark Energy or UA
- Earth accelerates upwards at a constant rate
 - > 9.8 m/s^2
- When you jump, you don't fall (no gravity)
 - > The earth moves towards you
- New theory: Density and Buoyancy:
- If an object is denser than its medium, it falls

Why?

What drives a flat earther?

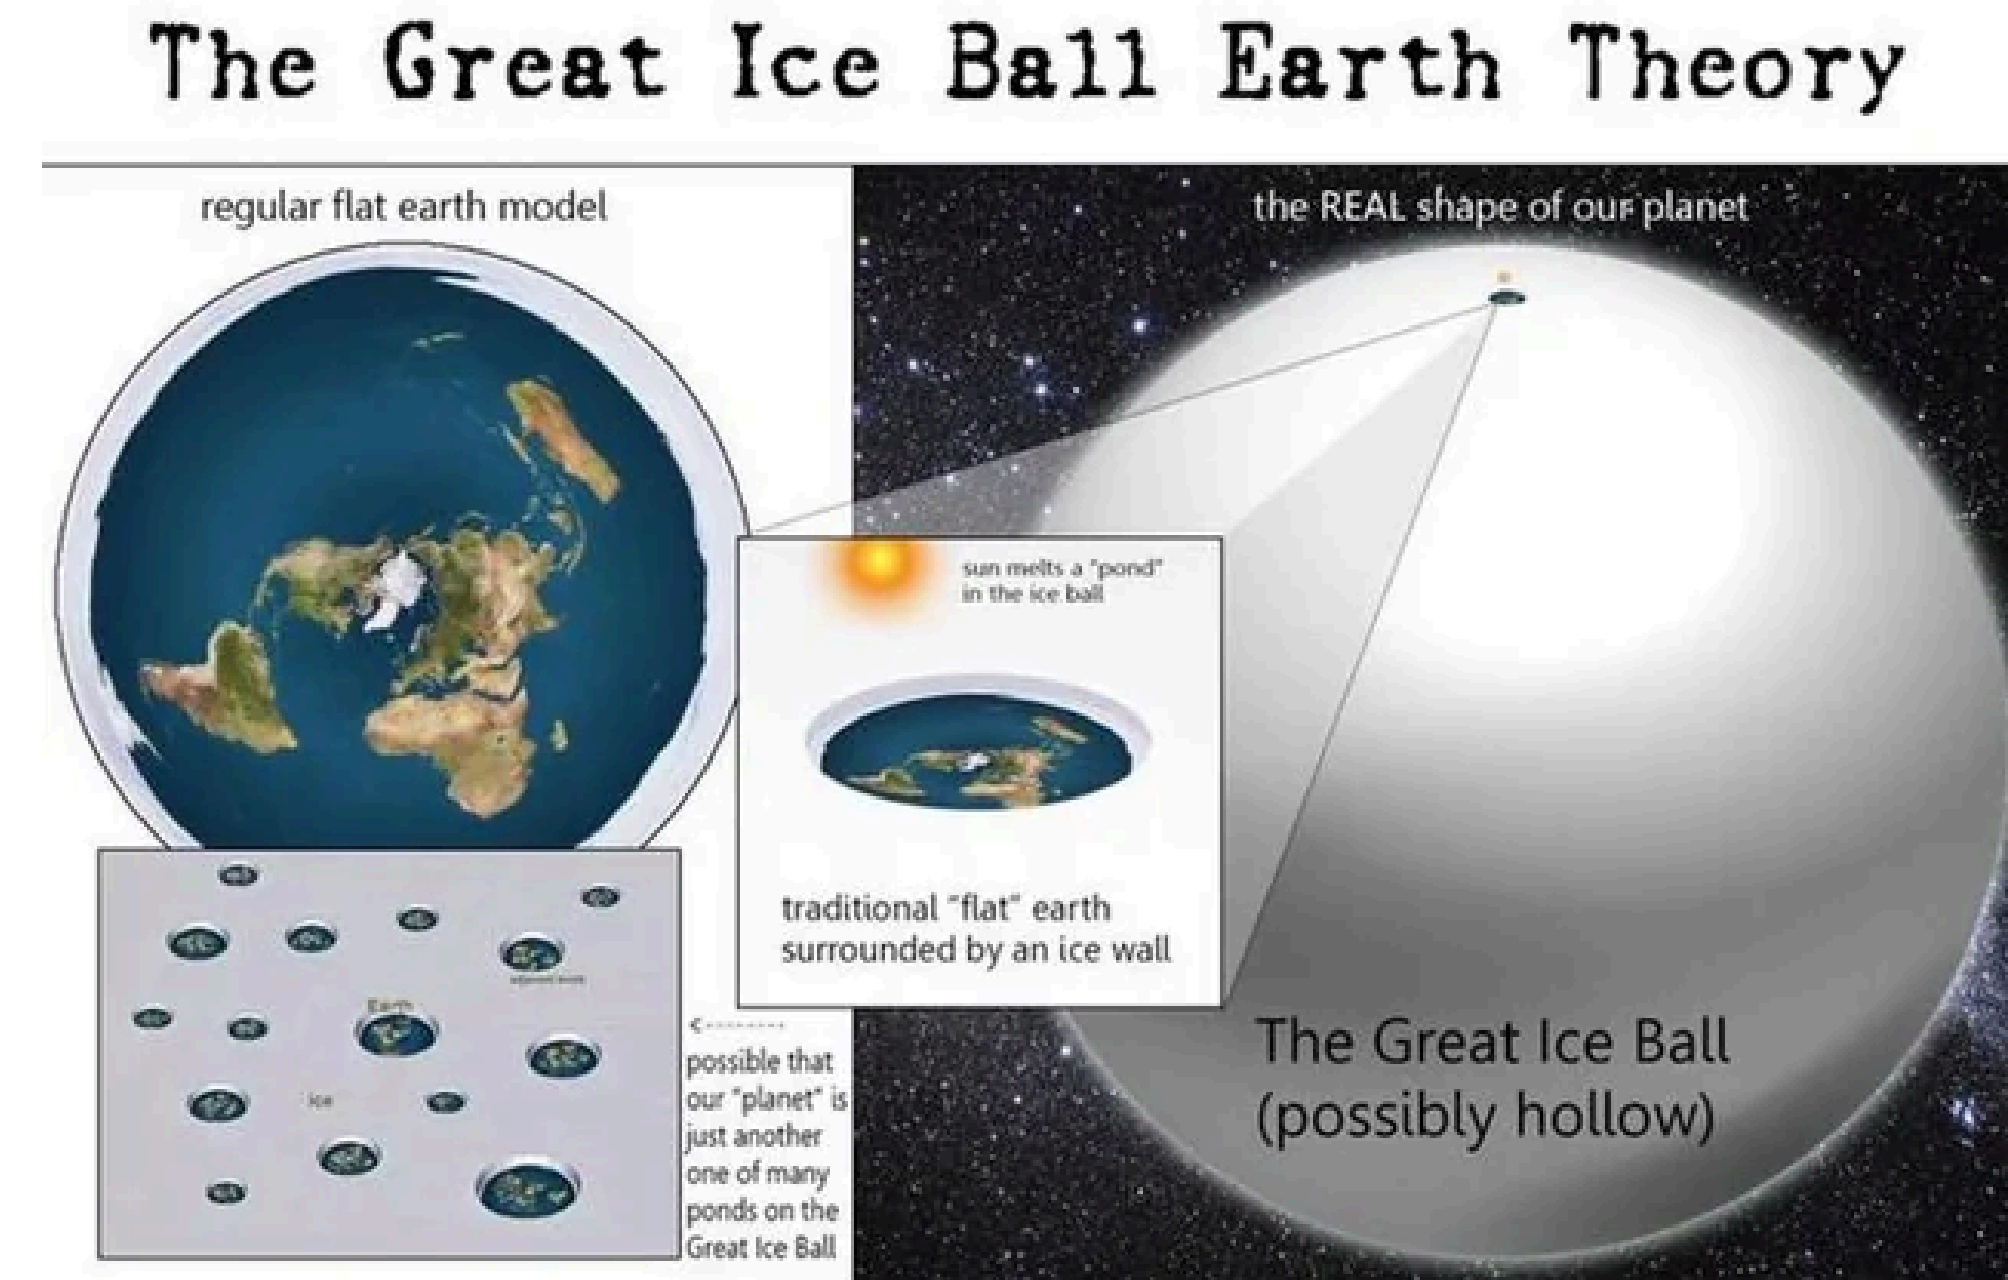

- In Order to believe in the Flat Earth
 - > You have to believe that science is fake
 - > You believe in a global conspiracy
- The Comfort of the Flat Earth
 - > With earth as a globe, we are small and insignificant in the universe (dread)
 - > With the flat earth, we are at the center and we are most important (we matter)
- Most important for a flat earther is, that they know the truth, which gives them the feeling of control and superiority

Other models

Ice Ball and Hollow Earth

- The Ice Ball Theory is a spin off theory
- Our Sun creates our spot on the Ice Ball
- There are many "Flat Earth" Spots on the Ball
- The Hollow Earth theory is one of the oldest alternative models
- Earth is a sphere but is completely hollow inside
- Earth Crust is 800 miles thick, beneath it is a new realm with its own internal sun
- Interior is a lush, tropical paradise with prehistoric creatures (dinosaurs)
